Old Coal Weighing Law Still In Effect

CHARLESTON, Sept. 13.—Samuel B. Montgomery, state commissioner of weights and measures and labor, yesterday received an opinion from Attorney General England relative to the weighing of coal. The attorney-general holds that the weights and measures law of 1915 does not repeal the section of the code concerning the weighing and measuring of coal; that these sections require cars to be numbered consecutively, and where coal is mined by weight, the cars must have the correct weight of the empty car marked upon them, and that where coal is mined by measure, the cars must have their capacity marked upon them. This opinion will be sent to all coal operators of the state.

'IT'S ALL RIGHT, EDDIE'S PITCHING' AND CHICAGO IS CONTENTED WHEN CICOTTE ETOES THE SLAB

BY PAUL PURMAN.
CHICAGO, Sept. 13.—It took Cicotte years and years to become a popular hero.

Most of these baseball heroes are born in a day, some when they have scarcely been heard of before. But not so with Cicotte. He became a hero just like he does everything, else by persistent effort, and the best thing about it is that the little unassuming Frenchman won't admit even that he is a hero.

But here in Chicago you can stop even a discussion of Mayor "Big Bill" Thompson's latest faux pas by mentioning Cicotte's name.

For to Cicotte, more than to any other person is credit given for putting the White Sox way out on top, from which, even ardent Boston fans will reluctantly admit it will be quite some little job to dislodge them.

And it is on Cicotte that the White Sox fans depend mainly to crush McGraw's brilliant Giants.

In a short series like the annual classic Cicotte can pitch every other day, and around Chicago they believe Eddie has the kind of stuff that McGraw's versatile batting staff will not care a great deal about.

What is the secret of Cicotte's success? In a good many cities around this league they will tell you it is the shine ball or saller, which is giving him remarkable success.

In Chicago they declare it is because "he has the stuff." Cicotte himself believes it is due to hard work and his decade long study of opposing batters.

It is undoubtedly a combination of the last two with the possibility of the first having something to do with it. Cicotte undoubtedly "has the stuff on the ball."

Whether he gets this from the shine ball or not is relatively unimportant now. Around the circuit they say it is impossible for a pitcher to be doing what Cicotte is doing at 35 without some artificial aid. Cicotte and his teammates are naturally not talking about the shine ball.

Be that as it may Cicotte has won 23 games so far this year, more than any other American league pitcher and to do that he must have ability whether he uses a shine ball or not.

Much of Cicotte's success is due undoubtedly to his study of opposing teams. There has probably been no pitcher in baseball with the exception of Mathewson who gave so much of his attention to this.

Naturally studious Cicotte scarcely ever grooves the ball for an opponent and usually is able by his uncanny control to place it where he knows the batsman is weak.

It is indeed strange that Cicotte should have his best season after a decade or more of rather unimpressive seasons but there is nothing meteoric about Eddie and there is no question that he has been greatly underrated in the past. In his entire career with the Reds and White Sox Cicotte has allowed an average of 2.19 earned runs per game, an accomplishment which few of the more brilliant pitchers in either league has achieved.

There is nothing erratic about Eddie. That is why when his name is announced to stand Chicago breathes a sigh of relief and sits back easily in the seat and says:

"It's all right. Eddie will do it."

Mrs. E. G. Bartlett Dies At Son's Home

Mrs. Henrietta Bartlett, widow of E. G. Bartlett, died last night at 6 o'clock at the home of her son, C. H. Bartlett, on Carleton street. She had been in declining health for more than a year with dropsy and her death was not unexpected.

The deceased was aged 70 years. She is survived by three children, namely, C. T. Bartlett, of Grafton, clerk of the Taylor county court; C. H. Bartlett, of this city and Mrs. B. Exline, of Philippi. Mrs. Bartlett had been a member of the Baptist denomination for more than fifty years. She was a woman of splendid character.

Services will be conducted at the residence this evening at 7:30 o'clock by Rev. W. J. Eddy of the First Baptist church and on Friday morning the body will be taken to Simpson where interment will be made with Undertaker Cunningham in charge.

Meaning of Word "Hohenzollern."
The word "Hohenzollern" has no distinctive meaning in itself, except as circumstances by common consent have invested it with such meaning. Originally it was the name of a German princely family of the middle ages, which for a long time furnished the kings of Prussia who, when the empire was formed, became emperors of Germany. The rulers of this line have been so autocratic and imperialistic as to make the word "Hohenzollern" synonymous with extreme autocracy and imperialism.

May Wind Up Church League Saturday

It is hoped to complete the Church Industrial league schedule for this season by a contest between the Baptists and Hopewell next Saturday, although there is no certainty as yet that the Baptists will be able to arrange for a contest at this time. If

the game is played, it will begin at 4:30 Saturday afternoon in order that it may be made a full nine inning contest and will not be interrupted by darkness. The Baptists are at present leading the league and the proposed game would decide the championship.

Duck of Antiquity.
A skillfully modeled clay duck was recently unearthed in excavations near Gezer. There is little doubt that this clay duck is older than the Testament records, but it is odd to note that nowhere in the Old Testament is there an allusion to this fowl.
